*"The best defense against usurpatory  
government is an assertive citizenry."*

- William F Buckley Jr.

## Five Pillars - One Vision

The renewal of America  
by returning our government  
to the principles  
of our Founding Fathers

### Our Purpose:

To change public policy that better  
reflects this vision by holding those in  
government accountable to uphold the  
United States Constitution.

### Our Goal:

To see our purpose and vision reflected  
in legislation, referenda, public funding  
and the administration of public  
institutions, as well as providing  
support to citizen activists  
who take up our cause.

• Our Five Pillars • Pro-Family • Limited Government •

Free Market Economy • Choice in Education • National Defense

## Who are we?

We are a movement of like minded citizens who care deeply about our country. We hold forth conservative values and the liberties granted to us by our Creator and documented by our Founding Fathers as set forth in the Declaration of Independence, Bill of Rights and Constitution of this great country. We are PATRIOTS who believe that by being United we can restore faith in our great republic, and bring us back to a place of freedom and prosperity for all. We accept this challenge to serve our community, and believe that such service is our solemn responsibility.

## How will we affect policies that adhere to our Pillars and Values?

We seek first to educate our members and our community on the core values put forth by our Founding Fathers. By knowing the facts and the truth gives one a firm place to better understand what public policy best serves our families, community and country. We endorse principals not candidates or political parties. We seek to form alliances with well established organizations proven to support similar values and to be United with them in advancing awareness of these values on a local basis.

## How you can be involved

Join us in our quest to reestablish the vision of our Founding Fathers, one community at a time.
